  - c. End of game, both Managers should sign pitching sheet to verify pitch counts.
4. If a pitcher is approaching the 75 pitch limit, the Manager should have a pitcher warming up and ready to be placed in the game
5. In a suspected rule violation, opposing coach should call for time, approach the umpire
  - a. Umpire will then ask for pitching logs
  - b. If pitcher has gone over 75 pitches, coach is ejected for the remainder of that game and the next game faces possible fine as described in League rules
  - c. Pitcher is immediately removed from mound without penalty to player
6. A pitcher is only eligible to play the position of catcher if he thrown less than 20 pitches. After a pitcher has thrown > 20 pitches, he is still eligible to play defensively, however, he becomes ineligible to play catcher the remainder of the game, **OR that day if multiple games are scheduled.**

The above pitching limits and days rest are guidelines taken from the ASMI, Dr. James Andrews. As we know, Dr. Andrews is arguably the most noted Sports Surgeon in the country.

The purpose for these rules is the safety and future of the players.
